

TAKE THE FIRST STEP ON YOUR GLOBAL HEALTH JOURNEY

The **GLOBAL HEALTH EXCHANGE** partners with AHP, a Johannesburg-based social enterprise that has supported more than **4100** health workers (including over **1000** English doctors) through the placement process. From initial planning through registration, in-service and post-placement career opportunities, AHP offers an end-to-end global health experience.

A UNIQUE OPPORTUNITY FOR FOUNDATION DOCTORS: BROADEN YOUR CLINICAL AND LEADERSHIP SKILLS WHILE WORKING IN RESOURCE-CHALLENGED COMMUNITIES IN SOUTH AFRICA AND UGANDA

The GLOBAL HEALTH EXCHANGE (Health Education England/NHS) is offering 12-month Global Health Fellowships within most English and Welsh GP training programmes.

This paid “out-of-programme experience” (OOPE) gives Fellows the chance to work in rural communities in South Africa and Uganda, caring for some of the world’s most vulnerable people and at the same time boosting career prospects.

You will work independently within a supportive team of nurses and colleagues, and travel to outreach clinics – dealing

with HIV/AIDS, trauma, infectious diseases, obstetrics, anaesthesia and internal medicine. Your GP School will give you the opportunity to apply for a Global Health Fellowship once you have secured your place in the GP Training Programme of your choice. Although, no formal interview will be required, you will be asked to meet with your local Global Health Lead to discuss your application. It can be a competitive process and the success of your application may be determined by national ranking.

OTHER BENEFITS INCLUDE:

- Opportunities for future global health and humanitarian work
- Connect to a network of global health doctors who have all been through similar experiences
- Global Health training and support during ST1 and ST2
- An abundance of things to do and places to explore in some of the most beautiful settings on earth
- You will be given the opportunity to attend a Dip in H&TM course as unpaid OOPE after completion of ST2
- Competitive salary

What’s it like working in rural South Africa? Watch this [video](#) to get some idea To see whether you are eligible for the programme and how to apply, please visit the GP [NRO](#) website <http://gprecruitment.hee.nhs.uk/Recruitment>

“It’s very varied work. It’s like being an augmented GP – you get to do a lot of practical procedures and if you have interest in something there’s capacity to try to develop it. It’s very good for learning because you have to be confident in your decision-making. We do community clinic once a week. I’m a GP trainee, I really like that kind of patient interaction. It’s nice to see the whole patient journey.”

Dr Rachel Bate, Global Health GP trainee from South West working in rural KwaZulu-Natal
