1. Introduction

The Targeted GP Training (TGPT) scheme will focus on doctors who left GP training before the increase in extensions to training which came into effect from 31 January 2018 (as detailed in the [Reference Guide for Postgraduate Specialty Training in the UK \(The Gold Guide, 7th Ed.\)](#)) having passed two of the three assessment requirements, with success in Workplace-Based Assessments being a prerequisite. A change in exam rules by the RCGP will enable doctors who re-enter training through the Targeted GP Training scheme to re-sit with a maximum of two additional attempts. This will not be affected by the number of attempts already had. Targeted GP Training programmes will be available at ST3 entry level only for a duration of 18 months.

All submitted applications for Targeted GP Training will be assessed using a standard, national and consistent staged process outlined below. This is an established and well-researched selection process using modern methodologies that are fair, robust and fit for purpose. The competency-based selection process allows applicants to demonstrate their abilities and suitability to re-enter GP training.

Applicants will make a single application for *all* available Targeted GP Training posts in participating regions. The assessment and selection processes involve the Multi-Specialty Recruitment Assessment (MSRA) which is a computer-based assessment and a face-to-face assessment at a Selection Centre. Successful applicants will be considered for appointment across the whole of the UK (based on their performance and rank). This method is known as Single Transferable Score (STS) as applicants are not restricted to being considered for appointment in a single specific region. The STS system is designed to maximise opportunities for successful appointment.

Applicants should also refer to both the [Oriol Applicant User Guide](#) (for general guidance on how to navigate Oriol and technical help with the on-line application form) and the [2019 Medical Specialty Recruitment Applicant Handbook](#) (for general information about the administration of national recruitment processes).

2. Eligibility Requirements

All applications will be assessed against the essential criteria outlined in the [Targeted GP Training Person Specification](#), i.e. applicants must meet *all* the following criteria:

- Have current GMC registration with a license to practice *at the point of application*
- Have previously held a GP National Training Number (NTN)
- Left GP training between August 2010 and January 2018
- Have satisfactory Workplace-Based Assessments (WPBA)

- Have passed one of either Applied Knowledge Test (AKT) or Clinical Skills Assessment (CSA)
- Have taken, but not passed, the other exam of the two
- Been in medical practice in the NHS in the last two years.
- Be able to demonstrate compliance with all NHS Revalidation, CPD and Appraisal requirements since leaving GP training

Applicants who are unable to satisfy the eligibility requirements will have their application rejected. For clarity the following doctors are **not** eligible:

- Passed one of the exams; not attempted the other
- Failed both exams
- Unsatisfactory WPBA

3. Submitting an Application

All applications must be made electronically via the on-line Oriel recruitment portal by the specified deadline. **Late applications will NOT be considered.** The dates and deadlines relating to recruitment activity are available on the [GPNRO website](#).

The Targeted GP Training application form will only ask for factual information about you, your previous GP training and your employment history. Once your application has been submitted you are unable to make any changes, apart from to update your own contact and referee details so please ensure that you do not submit unless it is complete.

Please be aware that Oriel does not support internet browsers that have reached the end of their product support lifecycle.

4. Communications Regarding an Application

Communication regarding your Targeted GP Training application will be via direct messaging through Oriel. An email will also be sent as a secondary form of communication however, as emails are external to Oriel, delivery cannot be guaranteed and therefore this method of communication should not be relied upon. Therefore, please ensure you check your Oriel account regularly for messages throughout the entirety of the recruitment process.

You should also make sure that you are using an email account that you can access at any time and will not be blocked by your employer's IT security system. If you are uncertain about this, you should check with your IT department at work.

To ensure messages from the GPNRO are not filtered by your email provider's junk / spam filters, you are strongly advised to add gpnro@hee.nhs.uk and noreply@oriel.nhs.uk to your email whitelist.

5. Selecting a Region (Preferencing)

Applicants are permitted to submit ONE application, per Round, for a standard Targeted GP Training programme. At the time of application, you will be asked to indicate your preferences from all programmes available in England and Scotland, in rank order. This means that you can be considered for appointment across the whole of England and Scotland.

Important: please only preference the programmes that you would be prepared to work in, *including those listed with zero vacancies as posts may become available at a later date*. If you preference a post, it is assumed that you are able to accept this, if offered. It is therefore imperative that applicants consider their preference choices before submitting them. In making those decisions, researching regions carefully is recommended.

Applicants are advised to read the regions' profile pages and access individual region websites for more information about the opportunities available. It is suggested that you research not only the types of programmes offered in each region but also the geography of each region, the main Trusts within the geography, transport links to home and so on.

The ability to record your preferences will be locked at point of application submission however you will be presented with a further window to continue preferencing; this window will span from the date of invitation to the Multi-Specialty Recruitment Assessment until 48 hours before the first offers date; these dates are published on the [GPNRO website](#) for all relevant rounds. Applicants who successfully complete the recruitment and selection process will have a further opportunity to amend their preferences once the offers process commences. See section 23.1 *Offer Exchanges/Enhanced Preferences* for details.

The Targeted GP Training Programmes that you preference in your application will be used to make you an offer, subject to the successful completion of the selection process.

5.1 Targeted Enhancement Recruitment Scheme (TERS)

TERS will **not** be available for Targeted GP Training programmes.

6. Flexibility in Deployment of Trainees (Special Circumstances)

Health Education England has advised that the Flexibility in Deployment of Trainees (Special Circumstances) initiative will **not** apply to recruitment to Targeted GP Training programmes.

7. Deferment

Applicants can only defer the start of their Targeted GP Training programme on *statutory* grounds such as personal ill health or maternity/paternity/adoption leave.

The *Step On Step Off Training* policy for deferred entry will **not** apply to recruitment to Targeted GP Training programmes.

8. Adjustments under the Equality Act 2010

All recruiters are aware of the requirements of the Equality Act 2010 and in this regard, recruiters will make reasonable adjustments to accommodate applicants at Assessment and Selection Centres provided these are made known in advance. Applicants who require adjustments (e.g. wheelchair access, extra time, nursing mothers) will be required to submit supporting evidence to substantiate the required adjustment. This evidence will need to be uploaded to Oriel via the *Document Upload* dashboard as "*Supporting evidence*" and attached to the application form *at the point of application*.

Adjustments cannot be guaranteed if evidence is provided late and no adjustments can be made on the day of the assessment.

In some instances, to satisfy requests for adjustments, it may be necessary to schedule an Assessment/Selection Centre place at a specific time or a specific location.

9. Application process for International Medical Graduates (IMGs) without Right of Residence

Applicants without right of residence will be able to apply in all rounds of Targeted GP Training recruitment. Applicants without right of residence will not be rejected solely due to their immigration status and, should they be successful, will be considered for an offer in this round. For these applicants to be appointed, the Resident Labour Market Test (RLMT) will need to be satisfied.

It is strongly suggested that you read the [2019 Medical Specialty Recruitment Applicant Handbook](#) to familiarise yourself with the immigration information contained within.

10. Evidence of English Language Skills

Applicants' evidence of English language skills will need to comply with the requirements set by the GMC and the Standard Operating Procedure (SOP) or Guidance issued by the relevant Primary Care Organisations (PCOs) responsible for maintaining a medical performers' list in either England or Scotland.

PCOs are NHS England in England and primary care divisions within area Health Boards in Scotland.

11. Fitness to Practise

If you answer *yes* to any of the Fitness to Practise questions on the application form, you will be required to send further information about this declaration to your first preference region *by the application closing date*. This must be provided on the [Fitness to Practise \(FtP\) Declaration Form](#) and sent to the GPNRO at gpnro@hee.nhs.uk.

Failure to provide this evidence by the application closing date will result in your application not progressing any further in the recruitment round.

12. Evidence of Workplace-Based Assessments (WPBA)

All applicants to Targeted GP Training posts are required to demonstrate that they previously left GP training having achieved satisfactory Workplace-Based Assessments (WPBA).

Satisfactory WPBA are evidenced via e-Portfolio in either of the following ways:

1. **Final ARCP** – the panel awarded an Outcome 4 and specified that *all* WPBA were satisfactory

Or:

1. **Final ARCP** – the panel awarded an Outcome 4 *without* listing any WPBA as needing further development **and**,
2. **Final Educational Supervisors Review (ESR)** – in an applicant's *final* review, the educational supervisor rated every MRCGP WPBA competence progression as "Competent for licensing" or "Excellent" when recommending overall competence to the *final* ARCP panel.

12.1 Exceptional Circumstances

If in the very exceptional circumstances applicants have evidence that they were marked down on their Workplace-Based Assessments for exam failure only, then, this should be submitted as part of the application process and it will be considered against evidence within

e-portfolio and the evidence from the HEE Local Office or Deanery. Suitable evidence should be formal correspondence from either the *GP Head of School* or *GP Director* at the HEE local office / deanery in which training was undertaken confirming release from training with satisfactory WPBA.

12.2 Consent to Access e-Portfolio

In order to process applications to Targeted GP Training, it is necessary to verify eligibility such as ARCP panel outcomes and WPBA outcomes in past training.

As part of the application process, applicants will be required to consent to the Royal College of General Practitioners (RCGP) providing e-Portfolio access to the General Practice National Recruitment Office (GPNRO) and the responsible Health Education England (HEE) / NHS Education for Scotland (NES) GP Directors for the sole purpose of checking eligibility to Targeted GP Training.

13. Revalidation

Doctors who hold a licence to practice to work in the UK must regularly show the GMC that they're keeping their skills and knowledge up to date and giving good care to patients. This process is called revalidation.

13.1 Compliance with NHS Revalidation, Continuing Professional Development (CPD) and Appraisal Requirements

All applicants to Targeted GP Training must be able to demonstrate compliance with all NHS revalidation, continuing professional development (CPD) and appraisal requirements since leaving GP training. Satisfactory compliance can be demonstrated in any of the following ways:

- **Currently on a Specialty Training Programme** - Applicants currently in active clinical or clinical and academic practice in a UK educationally approved training post (CT/ST/LAT or equivalent), holding either a National Training Number (NTN) or Deanery Reference Number (DRN) will be required to upload a satisfactory ARCP outcome from their current training programme to their application form, at the time of application submission.
- **Not currently on a Specialty Training Programme** - Applicants who are not currently in a UK educationally approved training post will be required to upload copies of their appraisals since their last revalidation to their application form, at the time of application submission. There are number of formats in common usage, and any format that addresses the GMC domains will be considered and assessed by the

responsible Health Education England (HEE) / NHS Education of Scotland (NES) GP Directors with knowledge of the NHS requirements.

IMPORTANT: in instances where appraisals were not conducted by applicants' Designated Body, as recorded on their GMC record, applicants will be required to provide supplementary evidence from their Responsible Officer (RO) confirming arrangements with external bodies to conduct appraisals on their behalf.

14. Accreditation of Transferable Competences Framework (ATCF)

Successful applicants will **not** be able to shorten their Targeted GP Training programme via the accreditation of transferable competences.

15. Reapplication to Specialty Training

Specialty training posts and programmes are not normally available to any doctor who has previously relinquished or been released or removed from that training post/programme. However, this requirement has been waived for applicants to Targeted GP Training who will **not** require support for re-application to GP specialty training.

16. Document Upload

As you progress through your application it may become apparent that you will be required to upload some form of documentation to allow GPNRO to assess your eligibility.

If you are required to do this, you must:

- Ensure that the document is uploaded as a single document and not in separate pages
- Ensure that the document label describes the nature of the document
- Ensure that the document is uploaded in to the correct document section

GPNRO reserves the right to request re-submission of documentation if the above rules are not followed.

17. Longlisting - Eligibility Requirements

All applications will be assessed against the essential criteria outlined in the [Targeted GP Training Person Specification](#).

18. Multi-Specialty Recruitment Assessment (MSRA)

All eligible applicants (i.e. those who have been assessed as demonstrating evidence of eligibility as outlined in section 2) will be invited to attend the next stage of the recruitment and selection process. The MSRA is a computer-based assessment which forms the first part of the selection process. The assessment has been fully researched and evaluated and has been shown to have high predictive validity.

GPNRO lead on the delivery of the MSRA and has developed a separate guide which provides GP applicants with information about the whole MSRA process (e.g. registering to sit the test, centre locations, format of the assessment, etc.)

All applicants are expected to read this document in full to develop an understanding of this particular stage of the recruitment process and what is expected of applicants; it is available from the [GPNRO website](#).

18.1 Direct Pathway to Offers

The Direct Pathway to Offers route is **not** available for entry to Targeted GP Training programmes.

19. Invitation to Selection Centre

On completion of the Multi-Specialty Recruitment Assessment (MSRA) process, applicants who have met the minimum required standard will be considered for Selection Centre.

Applicants who are successful at the MSRA will be able to choose where they would like to attend Selection Centre. Applicants will be invited to attend *one* Selection Centre and will be considered for appointment to programmes in all preferred regions.

19.1 Booking a Selection Centre

If you are invited to attend a Selection Centre, you will be required to log into your Oriel account and use the self-service functionality to book an appointment at a centre on a date and time of your choosing, subject to availability. The only exception to this is if you have requested a special accommodation under the Equality Act 2010; in this instance, the GPNRO will pre-book your appointment at a Selection Centre hosted by your first preference region.

When booking your Selection Centre, it is strongly recommended that you avoid booking from a mobile device or internet browsers that have reached the end of their product support lifecycle as these are unlikely to be supported.

19.2 Confirmation of booking

Once you have booked your Selection Centre, you will receive an automated confirmation of booking message in Oriel and a secondary automated message will be sent to your registered email address. If you do not receive confirmation, log into your Oriel account to confirm if the booking process was completed in its entirety.

20. Selection Centre

The Selection Centre involves applicants completing several exercises which are observed and assessed by trained assessors. This competency-based selection process has been researched and evaluated. We are confident that it is fair, robust and fit for purpose.

On the day of the Selection Centre, please ensure that you allow yourself plenty of time to get to the Selection Centre venue to allow for applicant registration. Applicants can expect the Selection Centre to last approximately 3 hours, however this can vary.

If you are booked to attend Selection Centre and are unable to attend due to unforeseen circumstances or an emergency, you must contact the organising region directly to ascertain whether alternative arrangements can be made. Alternative arrangements cannot be guaranteed.

All recruiters are aware of the requirements of the Equality Act 2010 as detailed in *Section 8*. Extra time is only available for the written assessment. If you feel that there are any issues related to a disability need that you may have, you **MUST** discuss these with the region before the assessment as no adjustment can be made for any applicant afterwards.

Applicants should note that children are not permitted at Selection Centre.

Important: *On arrival at Selection Centre, if you find you have a conflict of interest with a panel member, for example you are already familiar with them and you are not comfortable in being assessed by them, it is your responsibility to inform a member of the recruitment team at your earliest opportunity so that alternative arrangements can be made, such as being interviewed by a neutral panel member.*

20.1 Dress Code

Recruitment and selection may involve contact with simulated patients who should be treated as if they were patients, for clinical communication and assessment of clinical performance. Conventionally in the UK, formal professional practice between doctors and patients is appropriately marked by a certain formality of dress. The same dress code will apply for Selection Centre as it does for day to day clinical practice/contact with patients; this means that forms of dress should not constrain the applicants' ability to demonstrate

recognised skills. All doctors should ensure their appearance does not impede their professional roles and responsibilities; including communication with patients, relatives, carers and other staff. Casual streetwear, sportswear, revealing styles such as low-cut necklines and mini-skirts, dangling jewellery/accessories will normally be deemed inappropriate. Equally, forms of dress that cover the face will also be deemed inappropriate in such consultations.

20.2 Selection Centre Format

There are no interviews and assessors do not have access to your application form, your CV or any other biographical information.

The competences that are assessed at Selection Centre are:

- Communication Skills,
- Empathy & Sensitivity,
- Conceptual Thinking & Problem Solving,
- Professional Integrity.

Please refer to the [Targeted GP Training Person Specification](#) for more information about these.

There will be a briefing session at the start of your Selection Centre session and an opportunity for questions at the end of it; this is NOT a feedback session. Feedback on your performance will be given later and will be after the offers have been made.

20.2.1 Simulation Exercises

These will involve simulators and 3 different situations:

- A consultation with a patient,
- A consultation with a relative or carer,
- A consultation with a non-medical colleague.

They do not involve a physical examination and clinical expertise is not specifically assessed. The time allowed for each is 10 minutes.

20.2.2 Written Exercise

The written exercise will require some prioritisation or ranking of issues and a justification of your responses. The time allowed for the written exercise is 30 minutes.

All exercises will have specific and individual written instructions, with advice to spend time reading and being familiar with the requirements of the exercise. You can download example Selection Centre scenarios from [GPNRO website](#).

20.3 Preparation Hints

- Be yourself and be natural. Do NOT “act”
- Listen to and, carefully read all instructions given on the day about the exercises
- Be honest
- Trust the process which has always had excellent applicant evaluation; specifically, the evaluation says the process is fair, even from those who are not successful first time
- Practice the example scenarios with your colleagues by all means but we do NOT recommend you book commercial courses or purchase advice and guidance books specifically aimed at doctors undertaking the GP Selection Centre. None of the GP assessors take part in or endorse any preparation courses or books

We understand that applicants may wish to revise and prepare for Selection Centre with each other in small groups and would encourage this. However, sharing information about the actual Selection Centre is unacceptable and is viewed as unprofessional behaviour.

Assessments at Selection Centre are competency based and there is published evidence demonstrating that prior knowledge of the content and context of assessment does not positively affect performance. We would counsel applicants against altering their behaviour based on the advice of other applicants. We also remind applicants that entry to GP Specialty Training is competitive.

21. Outcome following Selection Centre

All applicants will be notified of their final results on the published offers date. The offers date can be found on the [Recruitment](#) webpage of the GPNRO website.

The results, including your final national rank will be published in your Oriel account against your Targeted GP Training application as interview scores. Detailed guidance on how to locate or view these scores is contained in the [Oriel Applicant User Handbook](#).

21.1 Composition of Final Result

The final mark for all applicants that have undertaken GP selection is calculated by combining results from both the MSRA and Selection Centre. To give an applicant’s final selection score, the PD element of the MSRA and Selection Centre scores are weighted at 40% each and the CPS element of the MSRA at 20%.

Assessment	Weighting
MSRA	60%
• <i>PD Paper</i>	40%
• <i>CPS Paper</i>	20%
Selection Centre	40%

To achieve an accurately weighted final score, it is important that all results use the same scale. Therefore, the weighted MSRA scores for the PD and CPS must be rescaled to allow them to be combined with Selection Centre scores.

An applicant's final score is then calculated by combining the weighted PD, CPS and Selection Centre scores in the agreed manner. A cut-off will be set to determine the minimum mark an applicant needs to achieve to be deemed 'successful at selection'. Applicants who achieve this score or above will be ranked and offers allocated accordingly. An applicant's final score, their rank, and the agreed cut-off score will be provided as feedback.

21.2 Appealing the Outcome

The outcome is final and cannot be reviewed, re-marked or disputed. There is no appeals process.

If you feel your application has not been managed correctly and have evidence of a failure in the process, there is a national complaints policy and procedure. You should explore this route if you have any concerns about your application. A copy of the policy can be located in the [GPRNO Resource Bank](#).

22. Offers

All offers will be made via Oriel by GPNRO. Offers received in any other way will be deemed invalid. If you are made an offer, you will need to respond to this on Oriel.

Applicants will be ranked in a single national list based on their performance throughout the selection processes. Offers are made in rank order based on this national ranking.

Initial offers will be released by *close of business* on the first offer date published for the current round (see the [GPNRO website](#)). Please do not contact GPNRO about offers prior to this date, as it could delay the release.

You will be given 48 hours (exclusive of weekends) to respond to an offer and you have the option to accept, decline or hold. Only one offer can be held at any one time, across all specialty applications in a given round. If you fail to respond to an offer within the 48-hour window you will be deemed to have declined the offer.

If you are holding an offer and try to hold another, the original held post will be automatically declined on your behalf by Oriel.

Once you have accepted a post, you will not receive any further offers from any other specialty in this round (i.e. Oriel will automatically withdraw you from all other applications you have in the given recruitment round).

Offers that are declined will be reoffered in rank order to other applicants.

If you choose to hold an offer, you can keep this offer held up until the hold deadline published for the current round (see the [GPNRO website](#)). Before this deadline, you will be required to go back into Oriel and make a final decision on the offer. Any offers still held when the deadline is reached will be deemed to have been declined and the system will automatically change your status to show that you have declined the post.

After the hold deadline has passed, any offers made will only have the option of accept or decline.

Please note:

- *When actioning an offer, it is strongly recommended that applicants avoid using a mobile device or internet browsers that have reached the end of their product support lifecycle as these are unlikely to be supported.*
- *Applicants whose immigration status would require an employer to obtain a Certificate of Sponsorship can only be made an offer if there are no remaining suitable UK/EEA applicants.*
- *Applicants who let their offer expire (and are withdrawn from the recruitment process) can be reinstated if they contact the GPNRO; however, their original offer cannot and will not be guaranteed.*

23. Upgrading Offers

If you rank highly enough to be made an offer, this will be made to the highest ranked Training Programme preference that is available when your final rank is reached. If this Training Programme offer is suitable for you and you do not want to be considered for any other preferences you have ranked higher, you can choose to simply accept it.

However, applicants do have the option of getting one of their higher ranked Targeted GP Training programme preferences, should they become available, by opting into upgrading. The upgrading option is available to all offers that have been held or accepted, but not where an offer has been declined. An applicant who has accepted or held an offer can opt in or out of upgrading at any time during the window which runs until the upgrade deadline published for the current round (see the [GPNRO website](#)). Please be aware that due to the

ranking of your GP Training Programme preferences you may move into a different region if you are upgraded.

If you opt into upgrades and a higher preferred offer becomes available, the upgrade will be automatic. You will be placed in the higher preferred post and an automated message will be sent to you Oriel informing you of the upgrade; you will **not** be given 48 hours to decide whether you wish to accept or decline the upgrade. If an upgrade is made, the previously held or accepted post will be released and will be reoffered to another applicant.

Once you have been upgraded you will be sent an automated message through Oriel to inform you of this. Details of the upgrade made will be available in the relevant section on Oriel.

Once the upgrading deadline has passed, no further upgrades will be offered, even if a more preferred GP Training Programme becomes available later.

23.1 Offer Exchanges/Enhanced Preferences

Applicants can have a change in circumstances for any number of reasons in the time between programme preferences being made and offers being released. To assist applicants in this situation, flexibility around preferencing was introduced in 2018 recruitment.

For applicants who have accepted or held a post, there will be an option to select upgrade options which not only include those programmes that were originally ranked higher than the offered post, but also those that were ranked lower.

Please note: Any changes to preferences made between the offers algorithm being run and offers being released will not be considered until the next offers match is run.

Applicants who have not been made an offer may also have a change in circumstances that requires them to make amendments to their expressed preferences. GPNRO will keep their programme preferencing open throughout the recruitment process, however this will be temporarily disabled before each offer algorithm is run, until the offers have been released.

These processes will continue up until the upgrading deadline in each recruitment round (see the [GPNRO website](#)).

More detailed guidance on this process is contained in the [Oriel Applicant User Handbook](#).

24. References

Referees should be contacted at the earliest opportunity to confirm that they are happy to support the application and provide a reference. You are required to give details of your last three clinical or educational supervisors from your current post, your previous post and the post before that.

All offers made will be on the condition of the offered region receiving three satisfactory references. Obtaining references is an applicant's responsibility. The offered region will NOT chase your referees.

24.1 Reference Requests

Reference requests are an automated process in Oriel. A request will be triggered and sent electronically to your nominated referees when you accept or, accept with upgrades an offer of GP training. To ensure that the requests are not blocked or filtered by your referees' email providers you are strongly advised to inform your referees to add noreply@oriel.nhs.uk to their email whitelist.

24.2 Completing a Reference

Referees are required to submit references electronically, using the online referee portal in Oriel. You will be advised, via your Oriel portal, when your referee has submitted a reference. In rare cases there may be a need for your reference to be provided on paper. We will instruct you if this is necessary. You can download a Structured National Reference Form from the [Oriel Resource Bank](#) and you will need to ask the affected referee to return the completed form directly to the offered region.

24.3 Changing Your Nominated Referee

For any references that have not yet been submitted you are able to update the details of or, change your, nominated referees. However, if a referee has already submitted your reference, you will not be able to make any changes to their details.

If you change the email address against a referee, a new reference request will be sent to the newly provided email address, and the original request will be withdrawn.

25. Further Preferencing within Offered Training Programme

Once you have accepted an offer of training at a region and the upgrade deadline has passed, you will be asked, by the offered region, to indicate your preferred geography and/or rotational posts from those that are available within the Training Programme that you have accepted.

Information regarding these further preferences will be published on individual region websites.

The GPNRO does not have any involvement in this process. Any queries relating to this should be sent to the region where the training offer was received.

25.1 Allocation of Trainees within Local Training Programmes

Once offered a Training Programme within a region it is expected that further preferences will be based on individual ranking and achievement over the exercises involved in the selection process, i.e. higher performing applicants are offered a higher preference from the pool of local placements/rotations on offer.

There is, however, a risk associated with the lower level of allocations to programme level if done purely by choice. Therefore, each region has developed its own allocation policy to mitigate risk. You should visit the website of the relevant region for further information on this.

26. Clearing

Using the Single Transferable Score model in Targeted GP Training recruitment means there will be no option for clearing. Therefore, if you do not receive an offer in this round of recruitment it will be for one of two reasons:

1. Every one of your Targeted GP Training Programme preferences are accepted before your rank is reached (this could happen even if you are considered appointable in the process).
2. You were unsuccessful at a certain part of the recruitment process (you will be notified if this is the case).

27. Feedback

Applicants will be given feedback throughout the recruitment process and will not need to make a formal request to receive it.

Applicants that are rejected at the longlisting stage will be advised of the reason why their application was rejected. Applicants that are rejected following MSRA will be advised of their total scores, and the scores needed to be invited to Selection Centre. Selection Centre feedback will be released within seven days after the initial offer date.

Applicants who wish to request feedback above and beyond the standard feedback that is provided (i.e. their actual score sheets) can do so by making a request to the GPNRO.

GPNRO expect the score sheets to be sent back to applicants within 20 working days however applicants must understand that in busy periods this could take longer to receive.

There is no further feedback that can be provided after score sheets have been requested.

28. Offers of Employment & Pre-Employment Checks

The offer and allocation of a Training Programme referred to above is NOT an offer of employment. An employment contract detailing the terms and conditions of employment will be issued by the responsible employing organisation and is made subject to satisfactory pre-employment checks. Your offer of employment will include the name of your employer, the start date and length of the period of employment, the location, the hours, the minimum rate of remuneration and the notice period applicable.

Information regarding pay, hours, sick pay and annual leave entitlements, notice period, study leave, pension scheme etc. are set out in the national terms and conditions available from NHS Employers. A framework for a written contract of employment for GP specialty registrars is also available from the BMA. Individual region websites may also provide additional local information and links to individual employer websites.

The employing organisation will carry out several pre-employment checks before an offer of employment can be confirmed. These will include verification of identity, registration and qualifications, right to work (immigration), employment history and employment reference checks (these are different from the clinical reference checks that the region needs), a Disclosure and Barring Service (DBS) check and an occupational health check. Some of these (verification of identity, registration and qualifications and right to work for example) may also be undertaken by the region during the recruitment process.

29. Applicant Interview Expenses

Any claims for expenses incurred in travelling to a Selection Centre should be made to the region that interviewed you, not the GPNRO. This should normally be a venue close to your residence or place of work. You will be expected to explain why this is not the case if you appear to have excessive expenses.

Please contact the organising region for further guidance on their expenses policy.
